All – this is a list of folks we would like to bring in – or at least extend an invitation to – for a pre-SOS briefing. I would love for you all to look over this and let us know if we've left off any key groups/individuals that we need to add to this, or if you think we should take anyone off. We have a section for folks that should get a phone call even if there isn't really a need to bring them in for a briefing.

Shana will be running point on coordinating all the invites. I'm blocking an hour for each but would like to get them done in 30-45 mins and just have a little cushion.

Thanks!
